• Modern & Responsive Website Design (if supported by supplied theme/script)
• PHP Script Installation
• MySQL Database Configuration
• Admin Dashboard Setup
• Blog Post Management
• Category Management
• Tag Management
• Featured Image & Media Upload
• SEO-Friendly URL Configuration
• Meta Title & Meta Description Setup
• Homepage Configuration
• Contact Page Setup
• About Us Page Setup
• Social Media Integration
• Mobile, Tablet & Desktop Responsive Testing
• SSL Certificate Configuration (if supported by hosting)
• Basic Website Security Configuration
• Website Testing

Why Choose My Service?

• Professional Installation
• Clean & Proper Configuration
• Fast Delivery
• Friendly Communication
• Affordable Pricing
• Quality Support

Perfect For:

• Personal Blogging Websites
• News & Magazine Websites
• Technology Blogs
• Business Blogs
• Educational Blogs
• Article Publishing Websites
• Content Marketing Websites

Order Now! Let's build your professional blogging website and start publishing your content online.

Note: Please contact me before placing an order to discuss your script requirements and hosting compatibility.

7. Buyer Requirements

Please provide the following information before I start your project:

1. Domain Name – Your website domain.
2. Hosting Login – cPanel or hosting control panel access.
3. FTP Access – If required.
4. Database Access – If required.
5. Blogging Website Script – Upload your script files or provide the authorized download source.
6. Admin Details – Preferred website admin username and password.
7. Website Logo – Your logo (PNG or SVG format).
8. Website Name – Your preferred website name.
9. Additional Requirements – Any special features or customization you need.

Important: Please ensure that you own the script or have a valid license to use it.

8. Frequently Asked Questions (FAQ)

Q1. Do you provide the blogging website script?
I can install your existing script or help with a properly licensed script if available.

Q2. Do you install the script on cPanel hosting?
Yes, I can install compatible PHP blogging scripts on cPanel hosting.

Q3. Is the website mobile responsive?
Yes, if the supplied script/theme supports responsive design.

Q4. Do you configure the database?
Yes, I configure the MySQL database and connect it to your website.

Q5. Can you customize the website?
Yes, I offer additional customization services depending on your requirements.

Q6. Do you provide support after delivery?
Yes, I provide support according to the selected package.

9. Gig Image Text

11. Order Delivery Message

Hello!

Thank you for choosing my Blogging Website Script Installation service.

Your blogging website has been successfully installed and configured according to your requirements.

Please check your website and let me know if you need any assistance.

Thank you for your order!

Best Regards,
Web Developer

Seller tip: Clearly state what is included in each package. Do not promise features, responsiveness, SSL, SEO results or support unless the supplied script and hosting can support them.
